

INSTARMAC®

For immediate release

August 2009

More than 18 holes?...

Ultracrete Instant Road Repair has the answer! For the permanent repair of potholes.

Ultracrete, the leading brand of highway maintenance and repair and refurbishment products, from the Instarmac Group, is offering a free demonstration of its renowned Instant Road Repair, for the repair of potholes in golf course complexes and driveways.

Ultracrete have recently introduced their new improved 3mm Instant Road Repair to provide its customers with an even quicker, more effective and more efficient product to permanently fill potholes.

Ultracrete Instant Road Repair is a permanent pothole repair solution for roads, pavements, driveways and car parks. It can be trafficked instantly in wet, freezing and hot conditions, and at the same time is compatible with existing flexible road surfaces.

The product is flexible and allows the road surface to move, and requires no special preparation – use straight from the tub.

For further information on Ultracrete Instant Road Repair and to arrange your demonstration, please contact Ultracrete on 01827 871871 or email instantroadrepair@instarmac.co.uk.
